

"The Heizer pocket shotgun is a remarkably versatile personal-defense tool. This little single-barrel pistol will fire .410 shotshells, slugs and purpose-designed anti-personnel loads as well as various .45 Colt cartridges with equal alacrity."

— **American Handgunner**

"The PS1 is touted as 'the world's most powerful small pistol,' and, given its compact size and large hole at the end of the bore, it's quite literally a hand cannon."

— **Guns and Ammo**
